

Leaning Bench

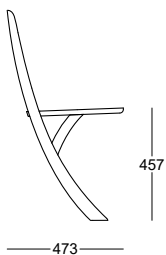

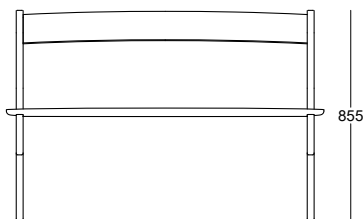

The Leaning Bench is a wooden bench designed to rest against a wall. The seating dares to question existing forms, proving that sometimes two legs will do just fine. It's all down to balance. By simply leaning the bench back against the wall elegantly, the design creates sufficient stability, while playfully challenging gravity.

Colors

Dimensions

Materials

Body | ash wood with a natural or dark hard wax oil.

Legs | Rubber underneath the legs prevents slipping, making this ash bench suitable for any floor.

Certification

DIN EN 71.3; suitable for children.

Instruction

1. Not suitable for more than 90kg.
2. Please do not jump on the bench.
3. Avoid using sharp tools to open the packaging or while using the products.
4. Do not put out cigarettes on the products.
5. Colour can change to some extent with time.

Packaging

Cardboard box of about 140 x 90 x 50 cm.
